Gayathri V

PRODUCT DESIGNER · Design Systems · Product Strategies · AI-Supported Design

"

Product designer who operates at the intersection of UX strategy, product thinking, and connected technology. I own design decisions end-to-end — from discovery and information architecture through to QA and launch — across mobile apps, smart hardware, wearables, and AI-powered fitness experiences. I partner directly with executive leadership and cross-functional teams to translate complex business goals and technical constraints into intuitive, scalable products that users actually adopt.

"

WORK EXPERIENCE – 2+ Years

Freelance Product & Website Designer

Aug 2026 – Oct 2026

- Independently worked on 3 website design projects, taking ownership from sitemap creation and translating client visions into structured, conversion-focused website experiences.
- Established visual design directions for desktop and mobile, applying CRO principles to improve content hierarchy, user flows and conversion touchpoints while collaborating closely with clients through regular feedback cycles.

Product - UI/UX Designer

Portl Technologies | Hyderabad | Jan 2025 – Jul 2026

- Led UX strategy and product design across a connected product ecosystem spanning mobile apps, smart fitness mirrors, connected gym hardware, wearables, analytics, AI-assisted coaching, and fitness assessment experiences.
- Partner directly with executive leadership, Product, Engineering, Hardware, AI/ML, and QA on roadmap, feature prioritization, and MVP definition; designs regularly presented by CEO during investor discussions and product reviews.
- Improved UltraGym NPS from 2.5/5 to 4.5/5 and contributed to a 30% retention increase — supporting 2,035+ registered users and 432 MAU across India and UAE; expansion planned for UK, US, and Australia.
- Led UX redesign of Portl Studio (280 devices sold) introducing AI personalization and real-time form-feedback; designed end to end UltraGym Pro translating sensor, force, and resistance data into actionable trainer insights.
- Built Portl's design system from scratch across mobile, mirror, wearable, and hardware experiences — ~35% faster design delivery through reusable components and standardized workflows.
- Strategized gamification and rewards initiative targeting D30 retention improvement from 38% toward 60% through progression systems, engagement loops, and real-world brand reward partnerships.

UI/UX Designer (Contract)

ZAZZ IT Solutions Pvt Ltd | Hyderabad | Jun 2024 – Nov 2024

- Contributed to a scalable design system and designed user flows, wireframes, interactive prototypes and production-ready UI in Figma, collaborating with developers to ensure accurate, pixel-perfect implementation.

Intern Designer

Aliens Group Pvt Ltd | Hyderabad | Jan 2023 – June 2023

- Developed 3D models, visualizations, architectural drawings, and detailed documentation, translating design concepts and functional requirements into tangible spatial solutions.
- Took ownership of the end-to-end design development of a Check Dam and Reservoir feature, from concept and spatial planning through detailed drawings and 3D modeling, iterating on solutions based on project requirements and feedback.

Product Design, Beyond the Interface

Real products. Real constraints.Real decisions.

DESIGN SYSTEMS & PRODUCT LEADERSHIP

- Built design systems from scratch at both Portl Technologies and Zazz IT Solutions - supporting 30+ products used by 8–10 designers across both organizations.
- Accelerated design delivery by ~35% through reusable components, configurable templates, boilerplate screens, and standardized workflows.
- Created reusable foundations for authentication, onboarding, OTP, settings, profile, chat, dashboards, workout flows, analytics, and connected-device controls.
- Established scalable design practices across mobile apps, web platforms, smart mirrors, wearables, analytics dashboards, and connected hardware interfaces.
- Improved design-to-development collaboration through documented interaction patterns, design QA, and clear implementation specifications.
- Partnered with executive leadership on product strategy, roadmap discussions, feature prioritization, MVP scope, and long-term scalable product decisions.

SKILLS

- User Research
- Information Architecture
- User Flows
- Interaction Design
- UX Strategy
- Product Discovery
- Feature Prioritization
- MVP Definition
- Usability Testing
- Journey Mapping
- Design Systems
- Wireframing & Prototyping
- Visual & Mobile Design
- Dashboard & Data Viz
- Design Tokens
- Figma (Expert)
- FigJam
- Photoshop / Illustrator
- After Effects
- Claude · ChatGPT · Cursor

EDUCATION

Bachelor of Architecture (B.Arch.)

NIT Trichy | Aug 2019 – May 2024

5-year professional degree. National Institute of Technology Tiruchirappalli - one of India's premier technical institutions.

CERTIFICATIONS

Interaction Design Foundation (IxDF)

- AI for Designers
